

# MD. SHAHADOT HOSSAIN

Software Engineer | React & React Native Specialist | JavaScript, Node JS & TypeScript Enthusiast

+880-1775-020-582 | [shahadotrahat786@gmail.com](mailto:shahadotrahat786@gmail.com) | [LinkedIn](#) | [GitHub](#) | [LeetCode](#) | [Portfolio](#)  
Uttara Sector 4, Dhaka, Bangladesh

## PROFESSIONAL SUMMARY

Proficient software engineer with 4 years of experience building and maintaining cross-platform mobile applications for enterprise clients, including Unilever, BAT, Nestlé, and Nagad. Specialized in automation-based operations, delivering applications serving 10,000+ users with 100,000+ daily transactions. Expert in offline-first architecture, real-time location tracking, face detection, and liveness verification. Proven track record implementing agile methodologies and cutting-edge technologies to improve performance, security, and scalability while collaborating with cross-functional teams.

## TECHNICAL SKILLS

**Languages:** JavaScript, TypeScript

**Frontend Frameworks:** React Native, Expo, Next.js, React.js

**Backend Technologies:** Node.js, Express.js

**Architecture & Design:** Microservices Architecture, Clean Architecture, MVVM, MVC, Repository Pattern, Monorepo (Nx)

**Databases:** MongoDB, MySQL

**State Management:** Redux, Redux Toolkit, React Query, Expo Router, React Navigation

**Styling:** Tailwind CSS, Tamagui, Gluestack, Shadcn/ui

**Tools:** VS Code, Git, GitHub, Xcode, Android Studio, Flipper, Jira, GitHub Actions

**APIs & Services:** REST APIs, Real-time Location Tracking, OCR, Redis, WebSocket

**Specialized:** Offline-first Architecture, Face Detection, Liveness Detection, Object Detection

## PROFESSIONAL EXPERIENCE

### HawkEyes Digital Monitoring Limited

*Mobile Application Developer*

**Dhaka, Bangladesh**

*June 2023 – Present*

- Lead development of React Native applications for Unilever, BAT, Nestlé, and Nagad serving 10,000+ territory managers with 100,000+ daily transactions
- Architect offline-first mobile solutions ensuring seamless functionality in low/no-connectivity scenarios, improving reliability by 40%
- Implemented advanced features: real-time face recognition, liveness detection, display capture prevention, asset tracking, GPS monitoring
- Developed multi-role applications (M-Lens, CM Supervisor, CM Live, MS Live) with role-specific dashboards and functionalities
- Integrated real-time data synchronization enabling administrators to access market data via remote portals
- Created cost-effective cross-platform solutions providing consistent UX across Android and iOS devices
- Collaborated with cross-functional teams to define features and deliver products exceeding client expectations

### TFP Solutions Bangladesh Ltd

*Jr. React Native Developer*

**Dhaka, Bangladesh**

*January 2023 – May 2023*

- Built Hello Superstar, a fan-based social media app connecting celebrities and fans globally with two-way communication
- Implemented user authentication, live sessions, auditions, chats, meetups, personalized greetings, and E-Showcase features
- Utilized REST APIs to retrieve data from AWS S3, enhancing application functionality and user engagement
- Maintained high-quality, efficient, reusable code following React Native best practices with 99% uptime

### Global Skills Development Agency

*Frontend Developer*

**Dhaka, Bangladesh**

*June 2022 – December 2022*

- Developed online learning platform using Vue.js and Laravel with Redux, Tailwind CSS, and REST API integration
- Designed user-friendly interfaces simplifying management and improving user experience by 25%
- Created clean, modular frontend codebase emphasizing maintainability and scalability
- Integrated third-party applications enhancing software features and performance

## KEY PROJECTS

---

**Unilever TM (M-Lens & CM Supervisor)** | *React Native, Redux, GPS, Face Detection* | [App Store](#)

- Multi-role application suite for field operations with M-Lens supporting multiple roles and CM Supervisor for supervisory tasks
- Implemented liveness detection, display capture prevention, asset tracking, real-time location monitoring for enhanced security
- Enabled real-time market data access via remote portals; deployed offline-first architecture for limited connectivity areas

**BAT MM Automation (CM Live & MS Live)** | *React Native, Real-time Sync, Location Services*

- Developed automation suite with CM Live for field operations and MS Live for supervisory management
- Integrated liveness detection, asset tracking, real-time location monitoring; optimized for 1000+ concurrent users

**Nagad TM (Pulse TMR, TMS, MR & MS)** | *React Native, Offline-first, CRUD Operations*

- Built suite of mobile apps for Nagad territory management with role-specific dashboards and offline-first approach
- Developed user authentication, real-time location tracking, comprehensive CRUD operations with automatic sync

**Hello Superstar** | *React Native, AWS S3, Social Media* | [Play Store](#)

- Social media app connecting celebrities and fans with live sessions, auditions, chats, meetups, and E-Showcase
- Implemented fan groups, Q&A sessions, exclusive paid content; integrated AWS S3 for scalable media storage

**Nexus Monorepo** | *Next.js, Node.js, Express.js, React-Native, MongoDB, Redis* | [Nexus](#)

- A production-ready, type-safe fullstack monorepo template featuring Backend (Node.js/Express/MongoDB), Web (Next.js), and Mobile (React Native/Expo) applications.
- Architected backend with Express.js API Gateway, Auth Service, Todo Service, and 10+ Services; implemented JWT authentication with refresh tokens, Redis caching, rate limiting, and email verification using Resend
- Developed frontend with Next.js, React Hook Form, TanStack Query for efficient data fetching, and Tailwind CSS for modern Shadcn/ui
- Implemented WebSocket for realtime service check. Use Swagger/OpenAPI for API documentation.
- For mobile use Expo SDK 54 - Latest Expo with React Native 0.81

**Prototype Applications** | *AI/ML, Computer Vision* | [HE Universe - App Store](#)

- **HE Universe:** Advanced prototype showcasing innovative UX and cutting-edge mobile technologies
- **Face Detection & Comparison:** Real-time face recognition with similarity matching for identity verification
- **Material & Object Detection:** AI-powered tools for identifying and classifying materials with mobile-friendly interfaces
- **HawkEyes & Arabic OCR:** OCR functionality including Arabic text recognition for multilingual support
- **Banglalink TMR:** Telecom-focused mobile solution streamlining reporting and monitoring operations

## EDUCATION

---

**Green University of Bangladesh**

*Bachelor of Science in Computer Science & Engineering*

**Dhaka, Bangladesh**

*January 2017 – April 2020*

## CERTIFICATIONS

---

- JavaScript Basic Certification • Web Design(Creative IT) • React Specialist • Complete Android App Development Masterclass
  - Advanced Mobile App Marketing

## ADDITIONAL INFORMATION

---

- **Soft Skills:** Agile methodologies, Cross-functional collaboration, Problem-solving, Technical leadership
- **Languages:** English (Professional), Bengali (Native)
